CORE EXPERTISE

Product Design · Remote Collaboration · UX Strategy · Design Systems · SaaS Platforms
Healthcare / EMR UX · Complex Workflows · Interaction Design · Prototyping · Dev Handoff

EXPERIENCE

PRODUCT DESIGNER

Stealth Startup. Silicon Valley, California, United States

Sep 2021 - Present · 5+ Years

- Led product design from idea to launch in a fully remote team
- Turned complex clinical workflows into simple, easy-to-use interfaces
- Designed EMR SaaS tools for ISF, CTMR, Settings, and Form Filler
- Worked with founders and engineers to define and improve features
- Built reusable UI components and design systems
- Created developer-ready designs and prototypes

UX/UI DESIGNER

Ayala Healthcare Holdings, Inc. Makati City, Philippines

Sep 2016 - Sep 2020 · 4 Years

- Designed healthcare SaaS products for member, provider, and admin platforms
- Simplified complex clinical workflows into clear, user-friendly interfaces
- Improved key flows like booking, claims, and patient records, increasing task success and reducing friction
- Built and maintained a scalable Figma design system for consistency and faster development
- Worked with product, engineering, and clinical teams on PRDs and feature iterations
- Delivered dev-ready designs aligned with accessibility and healthcare standards

SKILLS

- Design Tools: Adobe Creative Suite, Sketch, Figma
- Prototyping & Wireframing: Miro, Balsamiq, InVision, Axure, Proto.io, Zeplin
- Research & Analysis: User Testing, Usability Testing, A/B Testing
- Project Management: Agile, Scrum, Jira, Confluence
- Web Technologies: HTML, CSS, JavaScript basics

KEY IMPACT

- Delivered SaaS and healthcare products in remote teams for 5+ years
- Simplified complex clinical and business workflows
- Reduced unnecessary steps and UI friction
- Built reusable Figma components and design systems
- Improved collaboration between product, design, and engineering

SKILLS

- Product Design: End-to-end UX · Complex Workflows · Interaction Design · Usability & Experimentation
- Systems & Tools: Figma · Design Systems · Prototyping
- Collaboration: Agile · Cross-functional Delivery · Remote/Async Workflows
